

MAILBOX GUIDELINES

Avalon's elegant mailboxes create the first and lasting impression of Avalon when one enters and drives through the neighborhood.

If your mailbox and post has lost its gloss, is crooked, needs replacement or missing parts, please follow the below guidelines:

- **MAILBOX & POST REPAINT:**

Paint mailbox and post structure with black gloss rust-inhibiting paint including repainting the flag gloss red as needed; numbers should be complete on both sides of mail plaque and numbers should be same size/type on both sides. Please place house numbers only on the address plaque.

- **MAILBOX REPLACEMENT:**

The mailbox should be the same style, material and size as the original neighborhood standard mailbox -- same size as original (small, not overlarge), metal material, black color, red flag. If mailboxes are not Avalon standard, they will need to be replaced. The mailbox can be ordered through Alabama Mailboxes (205-594-4413 or sales@alabamamailbox.com) or check with Lowe's for a Postmaster classic standard-size box.

- **MAILBOX STRUCTURE PARTS or OTHER REPAIR:**

The mailbox structure must include all parts as original – including curlicues and address plaque. For replacement of any parts, please contact Alabama Mailboxes 205-594-4413 or sales@alabamamailbox.com.

Freshly painted and repaired mailboxes and posts will polish up the whole street, which then improves the neighborhood appearance -- which then improves property values. Thank you to all residents for doing a great job in keeping the Avalon community beautiful and for making Avalon the best community in Moody!
